

Sirs and Madames:

I am writing to complain about the Sinclair Media Group's decision to air blatantly partisan programming on its stations and having the gall to call this programming "news". Clearly, this is a political decision, not a decision taken in the interest of the public good. Their claims that because Senator Kerry has been "invited" to respond, this is news, is incredibly offensive. Our society relies on a free, non-partisan press. Please do all that you can to prevent this company from using public airwaves for political gain.

Regards, Janet Gannon
